**BOURNE**  
*from past times*

by  
**REX NEEDLE**

**The author**

**Rex Needle is a retired journalist who has edited and published the Bourne web site since August 1998 and is well known for his articles on the town's history published by The Local newspaper and elsewhere while several books on various topics can be found in the public library. Rex has lived in Bourne with his wife, Elke, for more than a quarter of a century and during that time he has researched its past and its people to produce a definitive history, A Portrait of Bourne, a massive work so extensive that it can only be contained economically on CD-ROM.**

**This highly entertaining book contains selected extracts relating to Bourne's past, its leading personalities, events, disasters and community life as well as episodes concerning the various wars which affected the town, yet despite this substantial volume, there is still sufficient material for other publications in the future from his formidable historical archive.**
